

- There is still a bug when throwing the core. It doesn't seem to throw forward when moving forward. Now, it drops to the ground whenever a player is moving forward and throwing.
 - This needs to be fixed asap
- Don't have a match start timer in the practice range
- Bullet tracers are too thick and they last for too long
 - They shouldn't linger on the field like they do, it should be more like a single laser disappearing behind it as it moves
