

Sounds:

- Uploading two new zip files of sounds
- For the footsteps, randomize it so that step sounds vary and ensure they are quieter than other sounds.
- replace the old sounds with the new versions in the new zip, keeping the same sounds client side vs global
- add the new sounds. For the pistol, have the consecutive sounds play when the pistol is shot fast, then play pistol 4 for every shot. After a .3second break from shooting, reset the sounds back to pistol 1.
- smg shoot 1 should play on every bullet
- gunshots should be global

—

- Pistol leg shot should be 25 dmg not 30
- Pistol should not be full auto
- Roxie's modded should add recoil now
- Increase smg reload time to 1.3 seconds
- Add damage fall off to the smg
 - The values should drop to 24, 15, 10 after a certain range
 - 800 uu falloff for now
- Add a page in settings to customize the crosshair

—

- Please create a google sheet with a full breakdown of every single stat in the game and its value
 - E.g. I want movement speed, roxie E cooldown, pistol headshot dmg, etc.
